Just went to 2 hospitals in LA to check out these "War Zones" the MSM keeps telling us about. 🏥

They are very quiet & EMPTY.

We are not being told the truth. Why?? Let's get [#FilmYourHospital](#) trending. We ARE the news now. We can't trust the news. Post pics of ur hospital here!

The video player shows a first-person perspective of an empty hospital emergency room. In the center, there is a white hand sanitizer dispenser on a stand. The floor is light-colored wood. In the background, there are blurred hospital fixtures and a person in a white coat. The video player interface includes a progress bar, volume control, and standard YouTube controls.

I've been interested by the [#FilmYourHospital](#) trend I've been seeing. Used my lunch break to check out ERs in Hayward, San Leandro and Oakland. Pretty densely populated cities in the Bay Area. The National response doesn't seem to fit the reality. Not yet anyway. [@SaraCarterDC](#)

There's no one inside the ER which is strange because this RR is always busy.
